Tudhoe Colliery Primary School Online Safety Policy

1. Policy Aims

- This online safety policy has been written by Tudhoe Colliery Primary School, involving staff, learners and parents/carers, building on the Kent County Council/The Education People/Durham County Council online safety policy template, with specialist advice and input as required.
- It takes into account the DfE statutory guidance '[Keeping Children Safe in Education](#)' 2019, [Early Years and Foundation Stage](#) 2017 '[Working Together to Safeguard Children](#)' 2018 and the [Durham Safeguarding Children's Partnership](#) procedures.
- The purpose of our online safety policy is to:
 - Safeguard and protect all members of our community online
 - Identify approaches to educate and raise awareness of online safety throughout the community
 - Enable all staff to work safely and responsibly, to role model positive behaviour online and to manage professional standards and practice when using technology
 - Identify clear procedures to use when responding to online safety concerns.
- Tudhoe Colliery Primary School identifies that the issues classified within online safety are considerable, but can be broadly categorised into three areas of risk:
 - Content: being exposed to illegal, inappropriate or harmful material
 - Contact: being subjected to harmful online interaction with other users
 - Conduct: personal online behaviour that increases the likelihood of, or causes, harm.

2. Policy Scope

- We believe that online safety is an essential part of safeguarding and acknowledges its duty to ensure that all learners and staff are protected from potential harm online.
- We identify that the internet and associated devices, such as computers, tablets, mobile phones and games consoles, are an important part of everyday life.
- We believe that learners should be empowered to build resilience and to develop strategies to manage and respond to risk online.
- This policy applies to all staff including the governing body, leadership team, teachers, support staff, external contractors, visitors, volunteers and other individuals who work for, or provide services on behalf of the setting (collectively referred to as "staff" in this policy), as well as learners, parents and carers.

c. Filtering and Monitoring

i Decision Making

- Our governors and leaders have ensured that our setting has age and ability appropriate filtering and monitoring in place, to limit learners' exposure to online risks.
- The governors and leaders are aware of the need to prevent "over blocking", as that may unreasonably restrict what can be taught, with regards to online activities and safeguarding.
- Our decision regarding filtering and monitoring has been informed by a risk assessment, considering our specific needs and circumstances.
- Changes to the filtering and monitoring approach will be risk assessed by staff with educational and technical experience and, where appropriate, with consent from the leadership team; all changes to the filtering policy are logged and recorded.
- The leadership team will ensure that regular checks are made to ensure that the filtering and monitoring methods are effective and appropriate.
- All members of staff are aware that they cannot rely on filtering and monitoring alone to safeguard learners; effective classroom management and regular education about safe and responsible use is essential.

ii Filtering

- Education broadband connectivity is provided through Aspire
- We use Smoothwall which blocks sites which can be categorised as: pornography, racial hatred, extremism, gaming and sites of an illegal nature. Schools should also be aware of the filtering detecting other safeguarding issues, such as self harm, serious violent crime or issues with county lines grooming.
- The filtering system blocks all sites on the [Internet Watch Foundation](#) (IWF) list and the school is able to flag and block any other sites we become aware of by contacting OneITSS.
- All school devices should be connected to a filtered feed. If a school device needs access to additional content, for instance to manage official social media, the filter settings for that device or user should be modified to allow access to that content.
- We work with One IT to ensure that our filtering policy is continually reviewed.
- If learners discover unsuitable sites, they will be required to:
 - Turn off monitor/screen and report the concern immediate to a member of staff.
 - The member of staff will report the concern (including the URL of the site if possible) to the DSL (or deputy) and/or technical staff from ITSS using their online portal.
